Tinware, Stoneware, Woodware, etc. Tin Roofing, Guttering, Spouting, and Stove Repairs a specialty. No. 28, Market Street, Toledo's old stand, Mayville, Ky. mydlly

SIMMONS' Medicated Well-Water.

A Specific for DYSPEPSIA and DISORDERS OF THE KIDNEYS.

HAS been used with most gratifying success in many obstinate cases. Prof. W. C. Clark, professor of Chemistry at the University of Cincinnati says this water "belongs to the same class with that of the Allegheny Springs, of Virginia," the medicinal virtues of which are too well known to require repetition. Those who desire to try this famous water are referred to Captain C. W. Boyd, Ohio; Captain C. E. Hays, Cincinnati; Dr. J. J. Ralpe, Cincinnati, Ohio. For sale in half bottles and one by the gallon. GUS. BILAMON, Proprietor, CLEVELAND, Ohio.

SMITH'S KIDNEY TONIC—TRY IT.

## BY A HAIR'S BREADTH.

NARROW ESCAPE OF GLADSTONE'S POLICY FROM C.SURE.

"You Had Better Wait to See if I Continue in Office," was Gladstone's Ironical Reply—Sharp Repartee and Biting Sarcasm.

LONDON, March 2.—In the house of commons Henry Labouchere gave notice that he would move that the house resolve that the militia had been embodied, because it indicated a resolution on the part of the government to interfere in the Sudan by force of arms.

Mr. Michael Hicks Beach, conservative, resumed the debate on Sir Stafford Northcote's motion to censure.

He called attention to the fact that the government had not attempted to defend the policy that caused the death of Gordon.

The country was entitled to know what the policy of the government was to be after it had been overturned.

Mr. Forster said that Gordon's spirit would have revolved at the idea of a party struggle over his sufferings.

He said that the government had not been able to support the policy that caused the death of Gordon.

He said that the government had not been able to support the policy that caused the death of Gordon.

## HIS SILENT, SHY DIVINITY.

From Whom the Earl of Durham is Seeking a Divorce.

LONDON, March 2.—Not since the trial of the divorce suit of Sir Charles Mordaunt against Lady Mordaunt have London society and the court been so interested in the proceedings of the court founded by the marriage of Sir Charles Mordaunt and Lady Mordaunt.

Some witnesses of that marriage ceremony, which took place two years ago, were in court as spectators, and when the plaintiff was sworn they recalled the noble Earl's marriage.

He said that the government had not been able to support the policy that caused the death of Gordon.

## THE LIST COMPLETED.

NEARING THE LAST SCENE OF THE CABINET MYSTERIES.

The Caste, With Fewer Uncertainties and More Realisms—But One Portfolio in Doubt—Only Things Unseen May Change It—The News.

NEW YORK, March 2.—The Albany correspondent of the World reiterates his assurance that Mr. Cleveland has positively selected the following cabinet officers and that they have accepted.

"Thos. F. Bayard, secretary of state. "Daniel Manning, secretary of the treasury. "L. Q. C. Lamar, secretary of the interior. "Augustus H. Garland, attorney general. "W. F. Vilas, postmaster general."

The correspondent adds: "An additional step has probably been taken in the decision to make Mr. William C. Endicott, secretary of war."

"Win. C. Whitney spent several hours with the president and with Mr. Cleveland. "Another cabinet member, Geo. E. Colburn, of Chicago, who was once a law partner of W. S. Bissell, Mr. Cleveland's present partner at Buffalo. It is conjectured that he had something to say about the cabinet change."

The correspondent goes on to say: "Mr. Bayard's resignation as senator has already been written and will be made public in a few days."

Mr. Cleveland has finished his inaugural address. It will be even shorter than at first expected—not over four-fourths of a column. The Times' London correspondent says: "It is the impression here that ex-Judge Endicott will be secretary of war. Friends of his who are in the city are confident that he will be."

Mr. Cleveland is known to have the highest respect for Mr. McClain, and at one time was strongly disposed to select him. It is the opinion of his advisers, however, that a civilian should be at the head of the war department. Mr. Cleveland is reported to have weighed their words carefully, and to have arrived at the same conclusion.

"At the West Shore office, it was stated by the manager that the train to New York to convey the presidential party to New York had been delayed."

The Times' Washington special says: "The extraordinary story has been heard here that Mr. Cleveland has been urged to retain Mr. Calhoun as secretary of the treasury, and that the suggestion was made in his favor. There has been no more cabinet reports. Col. W. F. Vilas, who has reached the capital, and who had engaged rooms at the Edgemoor, has given up his rooms, as he is to be the guest of L. Z. Lettner, who lives in Mr. Blaine's house on Dupont circle. In the absence of a cabinet, the fact that the president has been in session and that business of importance has been transacted, has been a great relief to the public."

The Times' special from Madison, Wis., says: "Colonel Vilas has left for Washington. An intimate friend of his said that from the first the Colonel had not much hope that a place in the cabinet would be offered to him. He had, however, been in session and that business of importance had been transacted, has been a great relief to the public."

available, while also constantly increasing at the rate of \$28,000,000 a year, it has followed, of necessity, that the flow of gold into the treasury has been steadily diminishing. Silver and silver certificates have displaced gold, and now displacing gold, and the sum of gold in the federal treasury now available for the payment of the obligations of the United States, and for the redemption of the United States notes called "greenbacks," is not already encroached upon. These are facts which, as they do not admit of differences of opinion, call for no argument. They have been forwarded to us in the official reports of every secretary of the treasury from 1878 till now. They are plainly affirmed in the last December report of the present secretary of the treasury to the speaker of the present house of representatives. They appear in the official documents of this congress and in the records of the New York clearing house, of which the treasury is a member, and through which the bulk of the receipts and payments of the federal government and of the country pass.

These being the facts of our present condition, our danger and our duty to avert that danger are plain and obvious. I hope that you concur with me and with the great majority of our fellow citizens in deeming it imperative that we should at once take steps to prevent the increasing displacement of gold by the increasing volume of silver.

It is the importance to prevent the two metals from parting company; to prevent the increasing displacement of gold by the increasing volume of silver; to prevent the increasing volume of gold in the custom houses of the United States and in the daily business of the people, to prevent the increasing volume of gold in the custom houses of the United States and in the daily business of the people.

Such a financial crisis as this would certainly precipitate were it not to follow upon so long a period of economical depression, would involve the people of every city and every state in the Union in prolonged and disastrous troubles.

Gold would be withdrawn to its hoarding places, and the purchasing power of the actual volume of our currency would speedily take place.
